- * Finalist for Pulitzer Prize and National Book Award (US)
- * Specially commissioned new introduction by the author (editor of the *New York Times Book Review*)
- * Reviews guaranteed in all major UK literary and political pages - will generate political debate

The spellbinding story of Whittaker Chambers, the complex figure whose intriguing transformation from Communist agent in the 1930s to anti-Communist witness climaxed in 1948, when he testified against Alger Hiss in the spy case that shook and changed America. With a cast that includes Richard Nixon as a young lawyer, Joseph McCarthy and many others, *An Un-American Life* is at once a vivid tapestry of twentieth-century history, a spectacular human drama and a political thriller of the highest order.

This exclusive edition contains a new introduction which brilliantly links the historical implications of the Chambers-Hiss case with the political reality in present-day America.

“Sam Tanenhaus has closed the case of Whittaker Chambers and Alger Hiss, and thus put to rest one of the most persistent (and repellent) myths of the fellow-travelling Left.” *Christopher Hitchens*

“A thrilling cloak and dagger story of espionage, stolen secrets, dual identities, smuggled messages, treachery and murder. A psychological drama of the anguish of a man who felt that love of his country was a higher moral duty than fidelity to his friends, with a moral for our time: honour those who speak unpopular truths.” *Tina Brown*

Sam Tanenhaus is the editor of the *New York Times Book Review* and former contributing editor at *Vanity Fair*. He is a frequent contributor to a host of major American newspapers, journals and magazines and a commentator on radio and television. He lives in Tarrytown, New York, with his wife and daughter.
